### The Buyer Role in CTW OneSource

The Buyer role in CTW OneSource is assigned to those users who have the authority to make purchases using the Universities funds based on the FOAPAL. Buyers in the CTW OneSource eProcurement system have the permissions for the following:

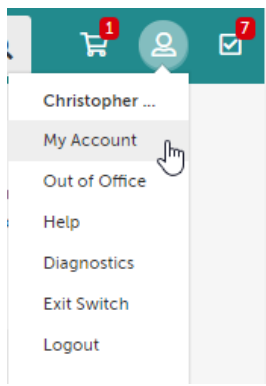

- Access suppliers in the online marketplace created specifically for Connecticut College
- Search and browse the contracted pricing catalogs from the Connecticut College suppliers
- Request and receive quotes from preferred suppliers
- Fill an individual shopping cart for checkout
- Accept and process requests from other users (Browsers) in the department that do not have FOAPAL authority
- Create requisitions for purchases against the Connecticut College FOAPAL
- View the status and approval path of requisitions
- View and export reports on purchase orders
- Indicate that the goods or services were received and are approved to pay
- View and track invoices against the purchase orders

### My Account Settings

When you initially log into CTW OneSource it is recommended that you check your account details. You can find the My Account page under the silhouette at the top right of the screen. Within the My Account page you can update your preferred first and last name, phone number and email address as well as set your default accounts. Setting your default account codes will make the checkout process more efficient if you use the same accounts repeatedly. It is NOT recommended that you set all parts of the account as a default as you may forget to change the Account for different types of purchases. You can also access the online Help provided by Unimarket in the Help page under the My Account menu.

Connecticut College

### Key Concepts

- There is currently one type of supplier found in CTW OneSource:
  - **Premium Supplier** – supplier who has a catalog in the CTW OneSource marketplace or provides roundtrip/punchout access to their ecommerce site from CTW OneSource.
- Products to be ordered from a supplier can be accessed in one of two methods:
  -  &  **Hosted Catalog** – supplier products are “hosted” on the CTW OneSource website, meaning you do not leave the CTW OneSource website to search and order these products. Hosted Catalogs are identified with the folder icon.
  -  &  **Roundtrip/Punchout** – supplier products are found on the suppliers’ ecommerce website with a direct link to and from CTW OneSource. Roundtrip/Punchout functionality will be identified with the globe icon. A new window or tab will open in your internet browser and you will be signed into the Connecticut College account on the supplier’s ecommerce site.

### Searching

Products or Suppliers can be located by searching the loaded catalogs of suppliers using the search options detailed below.

#### Product Searching

Product searches can be completed using the search function in the title section of CTW OneSource. The loaded catalogs, index catalogs (products pointing to a punchout site) or supplier key words can be searched. This search field will also search for supplier names. To search in this method, complete the steps listed below:

1. From the title section, type the product name or key word search term in the search field.

A search field with the placeholder text "Search marketplace..." and a magnifying glass icon on the right side.

2. Click **Search**.
3. Any products, supplier names or key words that match the criteria will appear in the search results.

#### Searching Tips

- Search terms can be combined using the words **AND** and **OR**.
  - **AND** will search for both words/phrases.
  - **OR** will search for one word/phrase or the other.
- Wildcard searches can be performed if the exact search word/phrase is unknown.
  - **?** will replace a single character; i.e. “Te?t” could be Test or Text.
  - **\*** will replace multiple characters; i.e. “Test\*” could be Tester or Testing.

## CTW OneSource Buyer Guide

Connecticut College

Advanced product searching allows the search to be narrowed by Supplier Category, Supplier, or Product Category.

1. Click the down arrow at the right side of the search bar in the search area. 
2. From the Advanced Product Search window, type the name of the product you are searching for in the Search field.

*NOTE: Any field marked with a red asterisk is a required field.*

Any time you see a blue question mark, a help bubble will appear when resting your cursor over it.

3. If desired, select a **Tag** or **Supplier** from the drop-down list and/or type in or select a Product Category to narrow your search results.
4. Click **Search**.
5. Any products that match the criteria will appear in the search results.

*NOTE: Results will not return products from roundtrip suppliers unless they have additional search functionality enabled such as an "Index Catalog".*

### Supplier Searching

If you are searching for a specific supplier, there are multiple ways to locate the supplier and the product.

- From the Dashboard tab on the menu bar, click on the **Supplier icon** in the Recently Used Suppliers list of the Information Section.
- From the Dashboard, click **View all suppliers** at the bottom of the Recently Used Suppliers list of the Information Section.
- Click on the Marketplace drop-down on the menu bar, click **View Suppliers**.

Once you are on the Marketplace page you can search for the supplier by name.

### Filling your Shopping Cart

#### Shopping by Catalog

If a hosted catalog folder icon, appears (  or  ) after clicking on the supplier name or icon, you will be selecting products from the supplier's hosted catalog on CTW OneSource. The supplier may have multiple catalogs that appear.

1. Click on the **supplier catalog** that you wish to shop.
2. The products available within the catalog will appear.

3. Each supplier's website will be different. Browse and search for products as if you had come to the supplier's website directly.
4. Add products that you wish to order on the supplier's website by clicking the **Add button**.  
*NOTE: The terminology of the button to click will vary based on the supplier's website.*
5. When finished shopping, click the **Checkout** or **Submit Requisition button** to return to CTW OneSource.  
*NOTE: The terminology of the button to click will vary based on the supplier's website.*
6. You will be returned to your shopping cart in CTW OneSource with the products you had selected. The additional tab or browser window that opened for the supplier's punchout site should close automatically. If this does not happen, consult your admin or IT support to look at your browser settings.

### Shopping Cart

The shopping cart appears in header bar at the top of the page. The number of products will appear in the cart.

### Creating a Shopping List of Frequently Ordered Products

If you have products that you regularly order, you can create a shopping list that can be reused every time you need to order those products. The products to be added to the shopping list need to be in the cart before proceeding. This is a great way to save time when you enter the product(s) manually on a frequent basis.

1. From the cart screen, click the **Create Shopping List**.

[View Shopping Lists](#)    [+ Create Shopping List](#)    [Clear Shopping Cart](#)

2. The Create Shopping List screen will appear.

3. The radio button for Create a new shopping list will be selected. Type a name for the shopping list in the field to the right.
4. If a shopping list has already been created and needs to be changed, select **Replace an existing shopping list** and select the shopping list from the available options.
5. Click **OK**.
6. Once a shopping list has been created, it can be accessed by clicking on **Marketplace** in the menu bar and selecting **Shopping Lists**. The following options are available:

- a. **Add selected to Cart** – select the products you want from the shopping list and click **Add selected to Cart** to add the products to your cart.

*NOTE: Doing so will replace anything that is currently in the cart.*

- b. **Share Shopping List** – allows the user to share the shopping list they created with other organization units.

- c. **Delete Shopping List** – click **Delete Shopping List** to permanently delete the template. A confirmation message will appear prior to deletion to confirm your selection.

*NOTE: When you use a Shopping List, the products will replace any current products that you have in your shopping cart.*

### Incomplete Requisitions from Browsers

The users in your department that do not have FOAPAL authority will be able to shop and reassign their incomplete requisitions to you as the buyer. As the buyer, you will be alerted by email from [eprocurement@conncoll.edu](mailto:eprocurement@conncoll.edu) when an incomplete requisition has been assigned to you. See example email alert below.

### Requisition R000073 Assigned

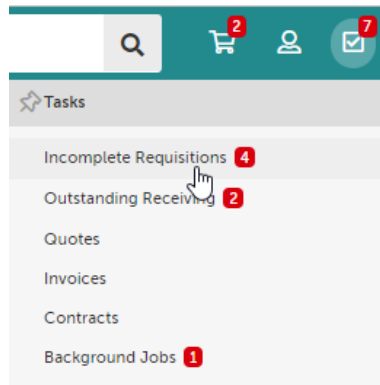

Nick Shaffer has assigned a requisition to you for action. They included the note:

Please review and process this requisition.

The requisition can be reviewed by clicking on Tasks -> [Incomplete Requisitions](#).

To find and process this incomplete requisition, go to the Tasks menu and Incomplete Requisitions.

In the Incomplete Requisitions page, you will see all requisitions that have been assigned to you for completion. Click the requisition number to open and review the details or click Checkout to begin the checkout for completion of the requisition and routing for approval.

### Locations

The shipping and billing addresses will be selected in the Locations section of the checkout screen. These addresses are preloaded in CTW OneSource. If you select another location and complete the checkout, your selection will be your new default for your next checkout process. You can type the first letter of the location to navigate the dropdown list easily.

### Attn Field

The Attention To field (Attn) is very important in your checkout process to ensure the accuracy of the delivery by the supplier. The most pertinent information for delivery should be first (left to right) in the "Attention To" field - i.e. lab or room # / Recipient last name / phone extension.

Example:

### Checkout Items

The items that you selected from the shopping cart will be listed as separate lines in your checkout items. Each line item will show the product name, Unit Price/Unit of Measure, Quantity and Subtotal. You may remove the line items from the checkout screen using the buttons to the right of the products.

3. Use the Account fields to enter the value of the required FOAPAL fields.
  - a. If you have set your default accounts in your My Profile Settings page, these fields will auto populate in every checkout instance. It is not recommended that you default the Account field as that should change for each type of purchase that you are processing.
  - b. You can begin typing the number or description of the FOAPAL element value and a dynamic list will appear to be chosen from.
  - c. Use the magnifying glass to open a search window if you have trouble finding the FOAPAL element that you are trying to allocate for the line item.
  - d. You can use the Copy Down button to repeat your selected accounts to each line below.

4. Delivery Date
  - a. Delivery Date is an optional field on the line item that can be filled in as a suggested or preferred delivery date to the vendor. For critical deliveries, please follow up with the supplier directly to confirm the delivery date.

### Hewlett-Packard Co

### Notes and Attachments

5. Enter any notes or attach any related documents to your order in the Justification or Notes and Attachments section of the checkout screen.
  - a. The Justification Notes and Attachment are for internal justification use and will not be sent to the supplier. The Justification Notes will always be on the requisition and not carried over to the Purchase Order.
  - b. The Delivery Notes and Order Attachments are for sending information to the supplier and will be sent to the supplier with the final PO.

### Organization Selection

Under the Justification Notes section of the checkout screen will be an Organization section. This section is for visibility and receiving capabilities across your organization to the supervisors and other users. Connecticut College has separated the Organization using the Index and Account access and department funding sources.

The screenshot shows a form titled "Organization Admissions" with a back arrow icon. Below the title are two dropdown menus. The first is labeled "Organization Unit \* ?" and has "Admissions" selected. The second is labeled "On Behalf Of \* ?" and has "Admin UM" selected.

6. Select the Organization that is appropriate for your purchase. This will most likely match the FOAPAL selected for your line items. Selecting the correct Organization unit will allow others in your organization to view and perform any necessary receiving actions for this purchase order. You may only have one selection, or you may have many depending on your organizations structure.

### Saving a Checkout

7. If you need to enter more information and must come back to the checkout screen, you can Save your checkout progress.

This will create an Incomplete Requisition that can be seen in the Task Menu.

1. Once your checkout screen is complete with all the needed information, click Checkout.

### Reassigning your cart

1. If you need to send this requisition to another buyer for more information or to complete the requisition and process for approval routing, click **Reassign**.

Reassign

2. A popup will prompt you to reassign your requisition to a Buyer. You can also include any important notes to the Buyer here.

A confirmation message will appear stating that the items have been forwarded to the designated individual. The Buyer will receive an email notification and the Incomplete Requisition will appear in the Tasks Menu for the Buyer to complete the requisition and route for approval. You can see the incomplete requisition status if you look at the View Requisitions page.

### FOAPAL Security Check

If you do not have access to purchase using the FOAPAL you will receive the below error and will not be able to continue.

If you do not have Banner access to purchase with the selected FOAPAL, you will see the below error. You will not be able to continue and must contact your administrator.

### Reprocessing a Declined Requisition

If your requisition is declined for any reason you will receive an email notification with the requisition number and details along with any notes that the declining approver provided. Reprocessing a declined requisition is easy. Follow the below steps to Copy and resubmit the requisition with changes.

1. Click the link to view the declined requisition from declined email notification or go to View Requisitions and search by Declined in the state search filter.
2. At the top right of the requisition view page, under the Actions menu, you will see the option to Copy the requisition.

3. When you copy the requisition, all information including the notes and attachments will be copied into a new Incomplete Requisition for you to edit and resubmit.
4. When you Copy, you will be taken directly to the Incomplete Requisition. Make any needed edits to the copied requisition and click Checkout to create the new requisition and route it for approval.
5. The new requisition will have a new number but will have a link and reference to the old requisition for historical information.

### Canceling an Order

An order can only be canceled if the order has not been invoiced or marked as having any receiving history. Some suppliers with Order Integration (🔗) can disable the ability to have a canceled order since they are processing the orders as quickly as possible. If an order needs to be canceled, contact the supplier to cancel the order or return the order once received. This would be the supplier's preferred process if they have disabled the ability to cancel an order in Unimarket.

Connecticut College

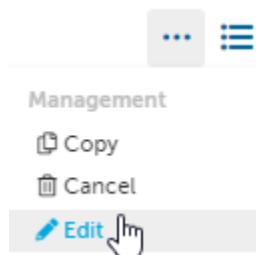

To cancel an order that has not been received against or invoiced:

1. Locate and view the order from the View Orders screen
2. Select Cancel from the Action options in the top right
3. Confirm that you want to cancel the order

The supplier will be notified via email that the order has been cancelled and you as the buyer will be CC'd for any added discussion through a reply all email. The order will also be canceled in Banner and the encumbered funds released.

### Changing an Order

An order can only be changed if the order has not been invoiced or marked as having any receiving history. Some suppliers with Order Integration (🔗) can disable the ability to have change orders done since they are processing the orders as quickly as they can. If an order needs to be changed, contact the supplier to cancel the order and/or create a new order and return the initial order once received. This would be the supplier's preferred process if they have disabled the ability to change an order in Unimarket.

To change an existing order that has not been received against or invoiced:

1. Locate and view the order from the View Orders page and select Edit in the Action items at the top right of the page.
2. A new incomplete requisition will be created with the original order details and will be placed into the checkout.

3. The original order details will be copied and can be modified as required from within the checkout screen. This includes Quantity, FOAPAL, Billing and Shipping addresses as well as other related information like notes and attachments.
4. Once you have the desired changes made, click Checkout.

The modified order will be routed for approval again IF the FOAPAL codes changed or the total value of the order is higher than the original. If the modifications to the order do not change the FOAPAL or increase the value, the changed order will be created with a new order number referencing the original order as a Change Of Order.

Once approved, a new order will be generated and sent to the supplier with a reference to the changed order. The Change Of Order link will provide an audit trail for the previous order. The original order will be canceled with a notification to the supplier and cancellation in Banner to release the funds.
