

How to Associate Your CamelCard at an MFD

The first time you tap your CamelCard at a Kyocera MFD you will need to type in your CamelWeb User Id and Password. You will only need to do this once, after this step is completed you will be able to tap in to use the device. (Do NOT add @conncoll.edu to your username please)

The screenshot shows the 'Card Association' screen on a Kyocera MFD. At the top left, there is a '< Back' button. The title 'Card Association' is centered at the top. Below the title, the instruction 'Enter username/password to associate your card with an existing account.' is displayed. There are two input fields: 'Username' and 'Password'. Below these fields is a blue 'Set' button. At the bottom of the screen, there is a navigation bar with several buttons: 'Status/Job Cancel', 'Copy Function', 'Send Function', and 'FAX Function'. The date '07/24/2020' is visible in the top right corner of the screen.
